Subject: Request for funding: FASEB summer research conference
DSS: Yes

Max,

I have assessed the request. This conference is unlikely to provide important information that would help PM USA in its pursuit of harm reduction from smoking. Please inform Bob Costa that we will not contribute to the funding of this particular conference and share with him that we have a continued interest to support scientific conferences that are more closely related to our research agenda and program than this particular one.

Regards,
Roger
